My name is Marco, and I was born in November, 1886 in Genoa, Italy. In our family made up of my mother, father, and a brother. All of us emigrated to the Argentina to live in Buenos Aires, when I was thirteen years old. After we lived in Buenos Aires two years, then we moved to Geoblas, where my father got a job in a factory. From my earliest days I knew that my parents had to struggle for every penny to buy us a house. My father is tall, strong, and hard worker. My mother is short, light skin, and a house wife. I also have an older brother that I love so much, he is giving, supportive, loyal, and loving person. Our first house which was near to school, was a big stone house, with wooden floor. It had a big front porch with a swing. I was attending Jonas High School, and I was able to walk home. The neighbourhood I lived in was a very quiet area.
